

Meet your new industry extension officer

About

Name: Alice Moore

Age: 26

Qualifications: Bachelor of Applied Science (Agronomy Major)

Contact: 0402 924 955

Background

- Precision Agronomy and Sugarcane.
- Originally from tea tree and timber industry farm.

For the past six years I have been working in Far North Queensland in the Burdekin Catchment for a Private Agronomy firm called Farmacist. Here I worked with local Sugarcane growers to implement tailored nutrient and chemical solutions for their enterprises, while focusing on precision agriculture practices and technology in agriculture.

This project, funded by Agrifutures Tea Tree Oil Program, has given me the opportunity to move back to my hometown. My husband and I are now surrounded by family, a wonderful privilege as we have started a family of our own.

I am thrilled to be back down in NSW and cannot wait to start working with growers on farm!

Who are Farmacist?

Farmacist is an agronomic solutions provider based in Mackay, the Burdekin, Far North Queensland and NSW. With over 100 years of combined agronomic experience, Farmacist specialises in practical precision agronomy solutions. Some of our services include:

- EM Mapping
- Research trials
- Crop monitoring
- Whole farm planning
- Soil tissue and water analysis
- Satellite imagery
- GIS Mapping
- Drone inspections

Key points

- Industry extension project funded by Agrifutures Tea Tree Oil Program
- Working in the tea tree industry in collaboration with ATTIA and AgriFutures Tea Tree Oil Program
- Three year project and position

Enhanced Extension for the Australian Tea Tree Industry

AgriFutures Australia Project No. PRJ-013114
Alice Moore and Rob Sluggett, Farmacist
April 2021 – April 2024
